The fire danger level went up yesterday and that means grass fires are especially likely now.</p> <p>8/17/11: Wildfires are burning across Oregon, one of them is major. Still, experts say this fire season is slow compared to last year.</p> <p>8/18/11: Fire managers say this year's fire season has been unlike any other in the last 20 years. The cool, wet spring made underbrush grow; now that underbrush is dry and the fire danger levels are still extreme.</p> <p>9/23/11: Fire danger will drop this weekend on Oregon Department of Forestry lands in Jackson and Josephine Counties. There are still restrictions: no open burning, no fireworks, and no mowing dry grass or welding metal in the afternoons.</p> <p>9/28/11: It's a sign fire season is coming to an end.
